### Buratamori / ブラタモリ

The title of this show refers to how its well-known host Tamori (whose real name is MORITA Kazuyoshi) wanders aimlessly around town (*bura bura aruku*). In each show, Tamori visits a particular area and tells audiences about the livelihoods of its inhabitants and the area's history while taking a stroll. This program focuses on discovering new aspects of each area by examining traces left behind and maps to rediscover the history and traditions of each place. Somebody
